SERIES KMI WITH POWER FOR THE FUTURE

Series KMI high intensity infrared heater has a radiant factor up to 81%*, the highest in the infrared industry. With significant energy savings and high thermal comfort, the innovative Series KMI is the 'greener choice' both for the environment and your cash flow

- 100% insulated reflectors prevents convective heat loss
- New 'high-grid' technology improves heat yield
- Increased efficiency through maximum preheating of the mixture
- Innovative injector burner works almost pollutant-free and guarantees optimum combustion
- Adjustable reflector panels direct the heat straight to the point required
- Reduced maintenance costs with easy removal of combustion chamber
- High output delivery from ceilings up to 200' high

** Independent laboratory tested to
DIN EN419-2, DVGW VP 5416, 07/2011
